TENDER FORM

To,
The Registrar,
Gujarat Vidyapith,
Ahmedabad-
380009.

Dear Sir,

I/We examined specification. Articles of agreement and condition of contract of bills of quantities along with schedule of rates & visited site. I/We hereby for the **electrical work for load extension work at various building in at GV, Ahmedabad.**

I/We further agree to complete the said **electrical work for load extension work at various building in at GV, Ahmedabad** from the said being handed over to me/us details of which is given in the appendix otherwise will have to pay penalty for delayed work.

In the event of this tender being accepted, I/We agree to enter into and execute the contract as well as Articles of Agreement issued by the Owners. I/We agree to be blacklisted in case of breach of the Contract.

**Your faithfully,
Contractor/s**

NOTICE TO THE CONTRACTORS
(General Condition of Contractors)

Name of the work - Electrical work for load extension work at various building in at GV, Ahmedabad

The quantities mentioned in the bills are approximate & in no way binding to the Owners or contractor. The owner reserves rights to omit or add item specified in Tender. Extra item rate will be settled by the owners as per market rate. The owners also reserve the rights of extinction of the side projects and contractor should not claim for additional rate then specified in the Tender.

1. The work as actually carried out and executed by the contractors must be measured jointly with owners Engineers and will be paid for.
2. Gujarat Vidyapith reserves the right to accept or not the lowest or any other tender and no reason will be assigned for the same.
3. It is compulsory to submit work in progress report twice a **week** to the owner engineer otherwise claimed payment bills may be detained.
4. Work not specifically detailed marked or specified shall be the same as similar parts that are detailed marked or specified in tender documents. The owner's Engineer interpretation of these document shall be final & without appeal. The general condition will apply with equal force to all the work including authorized extra works.
5. Materials of work described in words/abbreviation which so applied have a well Known technical or trade meaning shall be held to refer to such recognized standard.
6. The owners Engineers shall be in the first interpreter of the Conditions of this contract and the judge of its performance.
7. The contractor shall constantly keep on his project site during work in progress with one or more Qualified and competent Engineer electrical technical supervisors.
8. The contractor shall add to the amount of his tender the amount of GST. Any other Tax legally payable and it shall be assumed that his rates cover all the taxes & duties and no claim on this amount will be Entertained.
9. The owner reserves the right to let other contractors in connection with his work. Under similar generalCondition for specialized jobs or turn-key job work companies for his benefit.
11. If the owner deems it inexpedient to correct work, damaged or not done in accordance with the contract, an equitable deduction from the contract price shall be made therefore.
12. All the workmanship shall be subject to inspection, examination by the Owner during the time of work.
13. The contractor shall forthwith three written notice of the cause of delay to the owner. The Causes like force majeure, inclement weather, damage due to contingency, Workman's or transporters strike, lockout of manufacturers, change in plan & details not received in Time, any financial problems of the owner, any technical unsolved problem or any other circumstances Which the owner decide, may be consider for extension of time limit.
14. Any defects, shrinkage or other faults which shall appear within the "Defects Liability period" And within a Reasonable time the defects, shrinkage, or any faults specified shall be made good by the contractor Entirely at his own cost.

15. The contractor shall be liable for and shall indemnify the owner against any liabilities, loss, claim or proceedings whatsoever arising under any statute or at common law in respect of personal injury to or the death of any person whomsoever arising out of or in the course of or by carrying out the works, Unless due to any act or neglect of the owner or of any person for whom the owner is responsible. The Contractor shall maintain in the joint names or under the firm insurance in respect of any expense, Liability, loss, claim or proceedings which the owner may incur or sustain by reason of injury or damage to the property real or personal arising out of or in the course of or by any reason of carrying out of Works, and abused otherwise than by the negligence, omission, or default of the contractor, his servants or agents or his any sub-contractor or his persons. It is contractor's responsibility to pay the premiums of all insurance policies required under the law.
16. All disputes and differences of any kind whatever arising out of or in connection with the contract of Carrying out of the works (whether during the progress of the work or after their completion and whether before or after the determination, abandonment or breach of the contract) shall be referred to and settled by the owner and their decision shall be final and without appeal. But if either the owner or the contractor be dissatisfied with the decision shall be and is hereby referred to the "Arbitrator" (being Fellow of India Institute of Architects or G.I.C.E.A) and his decision shall be Binding to all. No party can go to the court of Law directly.
17. For any ambiguity or clarity of "conditions of contract" (Tender documents) guidelines of P.W.D or C.P.W.D manuals shall be referred and shall be accepted by the contractor. All papers included in "Tender copy" shall be considered as Tender document.

Name Of Work: - Electrical work for load extension work at various building in at GV,Ahmedabad

Sr No	Item Description	Qty	Per unit	Labour charges in Rs	Total Amount In Rs.
1	Erecting Four pole molded case circuit breaker with ELR having breaking capacity in KA. at 415 V, having normal current rating up to 100A. with Fixed thermal & magnetic release suitable to work on A.C. supply 50 c/s. with all internal connections, spreader tinned copper & complete erected in 16 G.M.S. housing. ICS=100% of ICU only Cat III	3	Nos		
2	Erecting Four pole molded case circuit breaker with ELR having breaking capacity in KA. at 415 V, having normal current rating up to above 100 A to 150A. with Fixed thermal & magnetic release suitable to work on A.C. supply 50 c/s. with all internal connections, spreader tinned copper & complete erected in 16 G.M.S. housing. ICS=100% of ICU only Cat III	1	Nos		
3	Erecting Four pole molded case circuit breaker with ELR having breaking capacity in KA. at 415 V, having normal current rating up to above 150A to 250A. with Fixed thermal & magnetic release suitable to work on A.C. supply 50 c/s. with all internal connections, spreader tinned copper & complete erected in 16 G.M.S. housing. ICS=100% of ICU only Cat III	5	Nos		
4	Removal of existing any size of Four pole molded case circuit breaker with ELR having breaking capacity In KA. at 415 V, having normal current rating up to 100 A to 250A. with Fixed thermal & magnetic release suitable to work on A.C. supply 50 c/s. with all internal connections.	5	Nos		
5	Removal of existing any size of Three/Four pole molded case circuit breaker without ELR with all internal connections.	2	Nos		

6	Erecting One wire 25.00 sq. mm Mains with ISI marked, 1.5KV grade electrolyte multi stranded, annealed copper conductor with heat resistant PVC insulated conforms to IS 694, IEC - 227 erected in 50 mm PVC Corrugated Flexible Pipe with required nos of PVC Bushes and check nuts following size and connection (both end) with (Specifically for control panel, relays, power switchgears, Meter box) including with supply of required size of copper lugs, nuts and bolts.	60	mtr		
7	Erecting One wire 35.00 sq. mm Mains with ISI marked, 1.5KV grade electrolyte multi stranded, annealed copper conductor with heat resistant PVC insulated conforms to IS 694, IEC - 227 erected in 50 mm PVC Corrugated Flexible Pipe with required nos of PVC Bushes and check nuts following size and connection (both end) with (Specifically for control panel, relays, power switchgears, Meter box) including with supply of required size of copper lugs, nuts and bolts.	80	mtr		
8	Erecting One wire 50.00 sq. mm Mains with ISI marked, 1.5KV grade electrolyte multi stranded, annealed copper conductor with heat resistant PVC insulated conforms to IS 694, IEC - 227 erected in 50 mm PVC Corrugated Flexible Pipe with required nos of PVC Bushes and check nuts following size and connection (both end) with (Specifically for control panel, relays, power switchgears, Meter box) including with supply of required size of copper lugs, nuts and bolts.	60	mtr		
9	Erecting One wire 95.00 sq. mm Mains with ISI marked, 1.5KV grade electrolyte multi stranded, annealed copper conductor with heat resistant PVC insulated conforms to IS 694, IEC - 227 erected in 50 mm PVC Corrugated Flexible Pipe with required nos of PVC Bushes and check nuts following size and connection (both end) with (Specifically for control panel, relays, power switchgears, Meter box) including with supply of required size of copper lugs, nuts and bolts.	60	mtr		
10	Removal of any size of one wire copper conductor from main switch and meter box. (Termination Disconnection from both end)	50	Nos		
11	Removal of existing metal Bus-Bar chamber size of 18*16 with all electrical connection.	2	Nos		
12	Erection of new metal Bus-Bar chamber 100Amp with size of 18*16 with all electrical connection.	3	Nos		
13	Erection of new metal Bus-Bar chamber 200Amp with size of 24*16 with all electrical connection.	3	Nos		

14	Laying of following 1100V grade XLPE insulated PVC sheathed armoured heavy duty Al. Cables of approved make conforming to IS-7098 (Part-I) specifications inside the building on wall / floor / beam/ in trenches and outside the building in existing trenches from LT panel / DB panel to required loads including supply of all required fasteners and civil works etc., complete. 4 core 10 Sqmm Al. armoured cable.	100	mtr		
15	Laying of following 1100V grade XLPE insulated PVC sheathed armoured heavy duty Al. Cables of approved make conforming to IS-7098 (Part-I) specifications inside the building on wall / floor / beam/ in trenches and outside the building in existing trenches from LT panel / DB panel to required loads including supply of all required fasteners and civil works etc., complete. 4 core 16 Sqmm Al. armored cable. (Trench Depth - 70cm, Width - 20cm)	160	mtr		
16	Laying of following 1100V grade XLPE insulated PVC sheathed armoured heavy duty Al. Cables of approved make conforming to IS-7098 (Part-I) specifications inside the building on wall / floor / beam/ in trenches and outside the building in existing trenches from LT panel / DB panel to required loads including supply of all required fasteners and civil works etc., complete. 4 core 25 Sqmm Al. armored cable. (Trench Depth - 70cm, Width - 20cm)	200	mtr		
17	Jointing the cable with suitable Terminations including supply of all jointing materials like cable glands, sockets,lugs, necessary fasteners and making provision in DB /LT panel for incoming & outing of cable with earthing of glands etc., complete. 4 core 10 Sqmm Al. armouredcable.	10	nos		
18	Jointing the cable with suitable Terminations includingsupply of all jointing materials like cable glands, sockets,lugs, necessary fasteners and making provision in DB /LT panel for incoming & outing of cable with earthing of glands etc., complete. 4 core 16 Sqmm Al. armouredcable.	25	nos		
19	Jointing the cable with suitable Terminations including supply of all jointing materials like cable glands, sockets,lugs, necessary fasteners and making provision in DB /LT panel for incoming & outing of cable with earthing of glands etc., complete. 4 core 25 Sqmm Al. armored cable.	25	nos		

20	Fixing of following IP-43, C-curve MCBs in distribution board or including required wiring, identification & numbering complete as per the directions of Engineer In-charge. Any size of Three Pole/Four Pole MCB	10	Nos		
21	Fixing of following IP-43, C-curve MCBs in distribution board or either including required wiring, identification & numbering complete as per the directions of Engineer In-charge. Any size of two Pole MCB	10	Nos		
22	Fixing of following IP-43, C-curve MCBs in distribution board or either including required wiring, identification & numbering complete as per the directions of Engineer In-charge. Any size of single Pole MCB	10	Nos		
23	Removal of old electrical fittings armored cables	50	mtr		
24	Removal of old electrical fittings Junction boxes, TP switch etc. with all connections.	20	Nos		
25	Earthing with G.I. earth plate 600 mm X 600 mm X 6 mm thick including accessories and providing masonry enclosure with cover plate having locking arrangement and watering pipe of 2.7 meter long etc. with charcoal/ coke and salt as required.	10	set		
26	Fixing 25 mm X 5 mm G.I. strip on surface or in recess for connections etc. as required.	100	mtr		
27	Fixing 6 SWG dia G.I. wire/ earth cable on surface or in recess for loop earthing along with existing surface/ recessed conduit/ submain wiring/ cable as required.	100	mtr		
28	Prepared test report for extension of load in services	10	Nos		

Total Amount (in words): _____

NOTE:

1. Quantity mentioned here are only tentative.
2. Actual quantity shall increase or decrease as per requirement only.
3. The contractor shall keep some items readily available at site.
4. Payment shall be made for actual quantities (used at site) in the contract rate.
5. Any item of work/ supply not cover above shall be treated as a variation. The rates shall be worked out mutually based.
6. Above rates quoted inclusive of GST.
